

Antenna Measurement Techniques Association

*3rd Place
Best Student Paper Award*

Presented to:

Adrien Guth

*“Polyhedral Sampling Structures for Phaseless
Spherical Near-Field Antenna Measurements”*

Authors:

*Adrien Guth¹, Cosme Culotta-López¹, Johannes Maly²,
Holger Rauhut², and Dirk Heberling^{1,3}*

¹Institute for High Frequency Technology, RWTH Aachen University;

²Chair for Mathematics of Information Processing, RWTH Aachen University,

³Fraunhofer Institute for High Frequency Physics and Radar Techniques

Presented at the 2020 AMTA Symposium

C. J. Reddy
C.J. Reddy, 2020 AMTA Technical Coordinator
